

WIS 23 UPDATE 3/31/2021

REMINDER:

- No Parking on Main Street from the bridge to Harriet St starts Wednesday, March 31, 2021, and will remain in effect until November.

UPDATE:

On Thursday, April 1st both lanes of traffic will be shifted to the west side of Main Street from the bridge to Harriet St (Stage 2 traffic pattern).

Two lanes of traffic will be maintained across the bridge until the River Street intersection is completed and temporary signal installed – anticipated late April/early May.

10-ft max width for local vehicles driving through the work zone – this is posted on the detour routes for advance notification. Removals, water main, and sewer work will start on the east half of Main St from the bridge to Alice St, then continue to the north as work progresses.

UPDATE:

On Monday, April 5th the Contractor is planning to CLOSE the section of WIS 23 from Harriet St to Minerva St to get started on pavement removals and sanitary sewer work.

Contractor required to coordinate driveway closures with property owners in advance; currently they are not planning to close any driveways next week from Harriet St to Minerva St.

Alternate local route will be Minerva St to Main St/Fayette Rd.
