

## WEEK OF APRIL 25<sup>TH</sup> – 29<sup>TH</sup>

- Galena Street: status quo with pipework continuing all week (storm sewer, water main, water services).
- Main Street: crews will be moving back in to finish off work from last year:
  - Planter Bed concrete – remove topsoil, place gravel, and pour concrete sidewalk back in place at planter bed locations.
  - Manhole casting installations – core out asphalt pavement and install remaining manhole castings along the west side of Main Street.
  - Bridgework – concrete repair in the northeast corner of the bridge, finish work along riverbanks, and topsoil restoration.
  - **TRAFFIC & PEDESTRIAN IMPACTS:**
    - **Parking stalls along both sides of Main Street will be closed off intermittently to complete the work.**
    - **Access to side streets on the west side of Main Street will be closed intermittently for manhole casting installations.**
    - **Sections of Main Street sidewalks may be temporarily closed to complete the work.**
    - **The sidewalk on the east side of the bridge will be closed for the concrete repair.**
